

INTRODUCTION TO SIRE LINES

Found on these pages are male lines of descent from Eclipse and Matchem, two of the three 18th century English stallions to which all Thoroughbreds today may be traced in tail-male ancestry. All advertised stallions in this register are shown here, their names appearing in italic type. Major sire lines existant today are thus presented so that the breeder seeking, or seeking to avoid, a particular male influence may see which stallions currently at stud meet his requirements. For particulars on the individual stallions, please see the white pages.

Matchem, 1748
